

## MRTRB, NSP and ICEN Honours first Cohort of Certified Spine Physiotherapists in Nigeria

01.11.2012 12:07:00 |

The [International Continuing Education Network \(ICEN\)](#) has been changing the culture and face of physiotherapy practice in Nigeria; one physiotherapist at a time. In the last several years, ICEN has been conducting Continuing Professional Education (CPE) for healthcare professionals in Nigeria. Recently, ICEN worked with the [Medical Rehabilitation Therapists \(Registration\) Board of Nigeria](#) (MRTRB) to organize CPE and certification in Spine and Orthopaedic Manual Therapy for Nigerian Physiotherapists based in Nigeria. The first set of certified Spine Physiotherapists were recognized and awarded their certification diploma at an Award Ceremony during the 52nd Annual Scientific Conference and AGM of the [Nigeria Society of Physiotherapy](#) which took place at Benin City, Edo State Nigeria on November 1, 2012. The Nigeria Society of Physiotherapy congratulates our colleagues who became Spine Certified Physiotherapists!
